

Pharmaceutical & Health Care Multimedia Specialist

Technical Solutions to Help Your Business Succeed.

Medical Publishing Services: Specializing in publications for professional conferences and meetings, and clinical, patient, and sales force training, Radio Gate provides the best quality publishing services at the

lowest price in the industry. Examples of our work include full-size books, manuals, bi-fold/tri-fold folders, and quick reference cards. On staff, we have seasoned medical content editors, Quark layout professionals, and publishing specialists. Bring us your concept and we can take it to print in just a few days, quickly delivering the final product to you. Complete in-house warehouse and fulfillment services provided.

Trade Show / Direct Mail / Large Format Print: In marketing your business you need to put your best foot forward. We'll help you do that with our trade show and direct mail packages. From postcards, letterheads and full color mailers to digitally printed poster-size signs for your booth, Radio Gate can help you stand out from the crowd.

Customer Feedback / Survey Deployments: Do you know what your customers want? Would you like to be more in tune with their needs? Here's a simple solution: Let Radio Gate develop a customer feedback survey that will help you better understand how to serve your customers. This deployment also includes complete fulfillment of Gift/Incentives programs for survey participants and 1-800 Help Desk Support.

e-Learning / CME Lecture Hosting: Radio Gate develops fully interactive, computer-based training programs to help your clients and staff quickly learn how to use your products and services. These training programs

are a vital part of corporate training, license practice exams, and/or Online Lecture Hosting. Radio Gate also provides CBT training for physicians who need to maintain their Continuing Medical Education credits. We also have developed the Live2Web Video Solution, which allows Radio Gate to video broadcast your company's lectures to a wide variety of formats (web, CD, DVD).

Web Development and Maintenance: Our web development services are targeted to clients seeking cutting edge web presentations to promote their company, services, and products. Radio Gate provides the *best in class* web deployments that you can find. Our web services range from custom graphics, to content writing and editing, to SQL data-driven web applications. Please visit radiogate.com/portfolio for examples for our recent work. Additionally, Radio Gate will provide you with ongoing web maintenance and domain management to keep your web site up to date.

Web & Email Hosting: Radio Gate provides affordable and reliable web hosting for your organization. Hosting your web site at Radio Gate allows our software team to easily provide you with custom web applications. Also, you never have to worry about your web site going down from an expired domain; we will manage domain renewal for you. Radio Gate e-mail servers are secure and fast, with D-SPAM anti-spam technology that traps unwanted junk mail. We also provide you with a web-based e-mail tool to allow you to check your e-mail from virtually anywhere in the world.

Dedicated / Co-Location Servers: Radio Gate provides exceptional value and service for our data center services, backed by over 10 years of operational experience. Our data center is protected with a 24/7 standby emergency generator, monitored 24/7 by a security monitoring service, and has multiple T1 redundancy. Radio Gate has senior CISCO and Microsoft administrators on staff to keep our data center running smoothly. We also have senior ASP/SQL programmers available to help you with your web applications.

CD/DVD Authoring and Duplication: At Radio Gate we offer the finest in CD/DVD authoring and duplication. Services include professional software application development such as pharmaceutical CBTs, video CDs and DVDs for your corporate videos, robust labels and graphic designs printed directly on the disc face, and even a variety of disc sizes and shapes to better fit any of your project specifications. Our DVD authoring is composed of a complete interactive experience, with navigational menus and clean, user friendly design. We are ready and equipped to handle your duplication projects from 100 to 100,000 CDs/DVDs. You will certainly see the difference when you choose Radio Gate!

Promotional Items: Our competitive prices and low minimum order quantities allow you to shop through a number of promotions marketing ideas. We offer everything from custom-imprinted mugs, mouse pads, and magnets to giant trade show displays—and much more.
