

OUR PURPOSE

The purpose of Live2Web is to create complete Video Lecture solutions with the highest quality production and the least possible stress for you the client. Our Multimedia staff handles everything from professional videography and transcription to CD/DVD authoring and duplication. We can even broadcast the production securely right to the web. At Radio Gate, we have cutting edge equipment, highly skilled technicians and a team of talented graphic designers to give your company the professional edge.

IS LIVE-2-WEB RIGHT FOR YOU?

- Does your institution perform lectures or symposiums?
- Does your company have an interest in sharing these lectures to people who were unable to attend?
- Does your company have a need to archive lectures or presentations?

If the answer is "Yes" to any of these questions the Radio Gate Live2Web could be right for you.

Contact Us at 610.358.6065 today.

How It Works

Step 1

The RGI Multimedia Team video tapes your lecture or seminar.

Step 2

Multimedia technicians extract the audio from the tape to be transcribed by our transcription team. Simultaneously, our graphic designers convert the slides from the presentation into graphics or video clips that fit the on-line web interface.

Step 3

Exam questions or survey materials are created and approved by your staff.

Step 4

The approved content is uploaded to the web to be viewed on a secure website by your staff or clients.

NOTE: Video Production can be put into any format that you prefer: DVD, CD, VCD or even broadcast to the web as described above.
